FRONT-END DEV (ANGULAR & REACTJS)

Profile

My name is Vinh, I'm a Full Stack Developer (MEAN Stack). Versatile Front-end Developer with 4+ years of experience developing complex sites. Passionate about building world-class web applications.

Skills

Web Developer

Able to be responsible for the entire front end of the product. Dynamic and detail-oriented Web Developer specializing in workflow logic development. Always comment on feature workflow and necessary designs. Worked closely with BA/PM/PO to get clearly requirements from customers

Soft Skill

Always listen to others for suggestions about my shortcomings and defend my right opinion. Ability to write reports and suggestions to help the project develop stably. Communicate positively with others, willing to help as much as possible. High adaptability to creative work, daily self-improvement, work arrangements and the most accurate handling.
